Installing Octave on Mac OS X (10.8 Mountain Lion and Earlier)

Installing Octave on Mac OS X (10.8 Mountain Lion and Earlier)

If you use Mac OS X 10.9, we recommend following the instructions above. For other Mac OS X versions, the Octave project doesn't distribute installers. We recommend installing Homebrew, a package manager, using their instructions.

"Warning: Do not install Octave 4.0.0"; checkout the "Resources" menu's section of "Installation Issues".
